| <b>Client:</b>                  | SPH Analytics   | <b>Date of Request:</b>       | 8/25/2017    |
| <b>Milliman Requestor Name:</b> | Sarah Prusinski | <b>Client Requestor Name:</b> | Sara Zywicki |

### *Scope of Work*

Generate a crosswalk between CCLF file fields and needed input file formats to aid in the ingestion and processing of CCLF data.

### *Assumptions*

This cross walk will be created based on version 18 of the Claim and Claim Line Feed (CCLF) files.

### *Deliverables*

An Excel workbook containing the following:

- The field mappings from CCLF data fields to HCG Grouper input file fields.
- The field mappings from CCLF data fields to MARA input file fields.

### *Cost*

The price \$5,000 will be a fixed bid price for all services outlined in this change order to be invoiced upon deliverable.

In the instance where a scope change is required, Milliman will bill additional fees based on time and materials specific to the work required for the scope changes.

### *Timeline*

Upon approval of this project order, Milliman will work with SPH Analytics on timelines for completing work outlined in this project order.
