Annual price adjustments for the following year will be posted by October 31<sup>st</sup> and go into full effect on the following January 1<sup>st</sup>. As new content types are made available through future feature enhancements, these prices will be made available on the MAP Support site. - b. Pricing is segmented by the risk classification of the data being hosted in MAP. These risk segments are based on Milliman-wide policy and are broken down into Restricted, Confidential, and High-risk.   - i. NYEB has confirmed that the highest risk classification of data being hosted in MAP falls into Confidential.
  - ii. NYEB will re-certify the sensitivity of data on a quarterly basis.
- c. The first 12 monthly bills will be discounted by 35%. After 12 months, NYEB will be charged the prices posted on the MAP Support site.
