However, the above limitations shall not apply to any indemnification, confidentiality, or payment obligations set forth in the Agreement, a violation of Milliman's intellectual property rights, or actual damages incurred by a party hereto as a direct result of any criminal or fraudulent acts of the other party or its agents. Notwithstanding the above, Milliman shall have no liability for any claim which: (i) pertains to any Milliman Property that has been altered or modified without Milliman's prior written approval; (ii) is based on use of the Product in conjunction with any item not provided by Milliman, unless such use is shown to constitute the infringement when not used in conjunction with the item not provided by Milliman; or (iii) identifies any third-party software, hardware, or service as forming the basis of such infringement.
- 5.2. **By Customer.** To the extent permitted by law, Customer shall, at its expense, defend, indemnify, and hold harmless Milliman and its employees, agents, successors and assigns from and against any and all loss, damage, liability, and expense arising from any claim brought against any such indemnified party related to Customer's misuse of the Product.
- 5.3. **Procedures.** For any indemnifiable claim hereunder, an indemnified party shall provide the indemnifying party with prompt written notice of any such claim brought against it, together with copies of all related court documents involving such claim. An indemnified party's failure to provide timely notice to the indemnifying party of any such claim shall not relieve the indemnifying party from any liability hereunder, to the extent that the indemnifying party is not prejudiced by such failure. Except as otherwise necessary to meet any legal or professional requirements for retention, upon the disclosing party's request, the receiving party will return or destroy all Confidential Information of the disclosing party that is in its possession.

- 6.2. **ID Codes and Passwords.** Customer shall ensure the confidentiality of its corporate identification codes, user identification codes, and user passwords used in connection with the Product ("ID Codes"). Customer shall be responsible for all transactions entered through and under any ID Codes, and any such transactions will be deemed to be made by Customer. In no event will Milliman be liable for the foregoing obligations or the failure by Customer to fulfill such obligations.
- 6.3. **Publicity.** Customer shall not refer to the Product in any communications with third parties. In particular, without limiting the foregoing, Customer shall not refer to the Product as the basis or source for decisions related to the management of an individual patient. Neither party shall refer to the identity of the other party in any third party disclosures, including without limitation, promotional material or press releases relating to the Product, unless the prior written consent of the other party has been obtained.

### **III. Milliman Support Responsibilities.** Milliman provides the following support to all Customers:

- A. **User Support.** Milliman provides user support by way of a fully trained Help Desk accessible through email at [prm.support@milliman.com](mailto:prm.support@milliman.com). - B. **Problem Severity Description.** Table C.3 outlines problem severity descriptions. The diagnosis of severity as related to a reported issue is determined by qualified Milliman system engineers/analyst.

**Table C.3 Problem Severity Descriptions**

Severity	Description
Priority 1	All or most of the service functionality is lost. Milliman is not operational and there is no workaround. A Priority 1 problem can be reduced to a Priority 2 problem if an acceptable workaround is found. <b>Priority 1 support takes effect immediately until the issue is resolved.</b>

## PRM Analytics

Priority 2	Some functionality of the services is lost but still provides useful information. Priority 2 issues are queued ahead of standard issues.
Standard	Service functionality is intact with issues revolving around items that limit the usefulness and/or user friendliness of the system.

### 1. Problem Reporting Process.

All issues received via the support email address will provide an auto-reply to acknowledge receipt of the issue. Within 1 business day Milliman Customer Support will provide a reply as to the problem Severity level and/or courses of action to be taken in relation to the issue. As part of the diagnosis/triage Milliman may request additional information and/or diagnostics to be performed by the client to effectively identify the issue.

### 2. Problem Resolution.

When Milliman's Help Desk is informed of a problem, the following actions are taken:

- a. **Problem Reproduction.** Milliman's Customer Support Department will attempt to reproduce the problem. For this, a customer will need to provide a clear description of the circumstances under which the problem occurs. This may include Customer Support requesting the email address (account name) of the account in question. As part of problem reproduction Milliman may request more information and/or diagnostics to be performed by the client.
- b. **Defect Logging.** When the problem has been duplicated by Milliman's Customer Support Department; it may be logged as a defect in Milliman's defect database if the root cause of the original problem is due to a software defect
- c. **Defect Investigation.** Milliman's Product Development Team will investigate the cause of the problem.
- d. **Workaround.** When, in the course of the investigation, alternative ways are found to obtain the design goal while avoiding the interruptive symptoms of the defect; these workarounds will be communicated as a solution to the problem. If the defect is deemed critical, a slipstream release will be created to address the issue. If the defect is minor it will likely be addressed in a future release of the system.
